Dear Hon. Johnson:

## Request for No Objection for Reduction in Lead Time and Single Source for Procurement Packages

I present my compliments and herewith request the Commission's **No Objection for reduction in lead time for a period of one (1) week and to single source some of the below packages** with funding source (5993). The Donor has given a timeline of two weeks to the Ministry of Health to utilize all the allocated funding.

### **Background**

These are facts and justification for the purpose of **No Objection** consistent with the time line for the utilization of donor (5993) funds. The need for this funding is even more urgent, especially now that the sector is seriously challenged with the reduction in USAID support to the health system.

For your consideration, the Ministry of Health has an obligation to ensure smooth operations in fulfillment to attain appropriate and optimum health outcomes of the Liberian populace.

### **MOH Recommendation**

Findings show that the donor (5993) has given the Ministry of Health funding to support the health sector in areas such:

1. Renovation of maternal situation center for data analysis \$100,000.00- (**Interior Perspective**)
2. Procurement of antenatal and post abortion care drugs @ \$80,000.00-(**G2 Pharmacy**)
3. Procurement of (3x3) KVA power back up blood storage freezers & blood bags @ \$25,000.00- (**SurgiMed Liberia Limited**)

Hence, the Ministry seeks your approval for **No Objection** for reduction in lead time and to single source antenatal and post abortion care drugs package to G2 Pharmacy, blood storage refrigerator package to SurgiMed Liberia Limited as well as renovation of maternal situation center for data analysis to Interior Perspective.
